(LIHWAP) Consolidated Appropriations Act of 2021 and  
American Rescue Plan  
GRANT IMPLEMENTATION PLAN**

**Grantee Name:** Indiana Housing and Community Development Auth.

**Document Status:** Public Comment Draft

## Section 1 – Program Needs, Goals and Allocations

### Community Needs and Program Goals

#### 1.1 Description of Emergency Household Drinking Water and Wastewater Needs

*The OCS priorities are restoration of household water services, reducing arrearages, reducing rates charged to households. Briefly describe current needs related to these priorities within your state, territory, or tribal areas. Describe any areas of concentrated need or special issues within communities served by water utilities within your state, territory, or tribal area.*

Currently in the state of Indiana, water/wastewater rates are increasing more rapidly than energy rates and outpacing inflation and the overall CPI. According to the Indiana Utility Regulatory Commission (IURC), from 2010-2019, in the state of Indiana water/wastewater rates increased 4.77% per year, while in comparison, CPI rose at 1.87% per year. While this rapid increase is occurring, the rates of cost of living, healthcare, and childcare are also on the rise, putting Indiana on the map in other areas of concern.

Indiana ranks 27th in poverty and 39th in income inequality in the United States. These facts alone support the need for dollars to aid in restoration of household water services, reducing arrearages, and reducing rates charged to households, however, there are several other specific examples that further demonstrate the need. IURC states, for example, that low-middle class four-person households in the

#### 1.2 Operational Priorities and Emergency Flexibilities

*Consistent with goal of the American Rescue Plan to provide immediate relief to the American people, briefly describe the operational priorities within your state, territory or tribal area (e.g. immediate restoration of services to households without current water services, immediate payment of existing arrearages to prevent disconnection of drinking water or wastewater services after a previous moratorium on water services due to Covid-19).*

The operational priorities in Indiana are to assist residents in reconnecting or staying connected to water services. Therefore our programmatic priorities are 1) the immediate restoration of services to households without current water services, and 2) the immediate payment of existing arrearages to prevent disconnection of drinking water or wastewater services.

#### 1.3 Expected Date for Initial Water Payments on Behalf of Households

*Provide an estimated date by which payments will be initiated based on the operational priorities identified above (e.g. first stage of payments to restore services for currently disconnected households, etc.).*

November 1, 2021

All applicants will be asked if they are applying for Energy Assistance, Water Assistance, or both. Any applicant applying for EAP (alone or both), will go through the EAP eligibility process. Once determined eligible, they will also be categorically determined as eligible for the Water program.</p> <p>We will not be using categorical eligibility for any of the other (non-LIHEAP) programs listed above.</p>

## Section 6: Water Suppliers

*Note: Water suppliers refers to both drinking and/or wastewater suppliers as they may be different entities at the local level*

**6.1 The following question is specific to Tribes (only). Do you charge households drinking water and wastewater utility services?**

- ☐ Yes If "Yes" please proceed to next questions.  
☐ No If "No" please skip to question 6.5.

**6.2 How do you notify the household of the amount of assistance paid, and the timing of the assistance payment?**

All clients who apply for Water Assistance will receive a letter informing them if they are approved or denied and gives them information on their right to appeal.  
For those who are approved, their benefit letter will include the amount of assistance and a list of vendors that were paid on their behalf.

**6.3 How do you assure that no household receiving assistance under this title will be treated adversely because of their receipt of LIHWAP assistance?**

Vendor MOAs will include consumer protections barring them from assessing any additional fees or treating households differently as a result of being part of the LIHWAP. Each vendor who receives payment as part of this program will have a signed MOA on file. Clients will be able to report any suspected adverse treatment to IHCD or to the Attorney General's office.

**6.4 How do you assure that water suppliers are restoring disconnected service or otherwise maintaining continuity of service due to the benefit payment?**

Vendor MOAs will include agreement that the vendor will restore disconnected service within 3 days of IHCDAs pledge for a household and/or will not disconnect service within the month of IHCDAs payment for LIHWAP households. Each vendor who receives payment as part of this program will have a signed MOA on file. Clients will be able to report a breach of this agreement by the vendor to IHCDAs or to the Attorney General's office.

**6.5 For Tribes who answered "No" to question 6.1, please describe how you intend to maintain accurate records to show how LIHWAP funds are expended for drinking water and/or wastewater utilities on behalf of households. (I.E. Financial expenditure reports).**

If any of the above questions require further explanation or clarification that could not be made in the fields, provide said explanation here.

## Section 7: Program, Fiscal Monitoring, and Audit

### 7.1 How do you ensure good fiscal accounting and tracking of LIHWAP funds?

IHCDA's will review all LSP claims and transmittals to assess compliance with time limits for submission and accuracy of amounts claimed. When an allocation is made to an agency, an agreement is created along with a budget form. Each LSP fills out the budget adhering to the percentages allowed for each line item. Each line item is entered separately into the claims and payment system and the budget is line-item enforced so that the agency cannot overspend in any line.

### Audit Process

## Compliance Monitoring

### 7.3 Identify the Grantee's strategies for monitoring compliance with the Grantee's and Federal LIHWAP policies and procedures (e.g. certifications, Terms and Conditions, federal guidance, nondiscrimination requirements): *Select all that apply.*

#### Grantee employees:

- ☐ Internal program review
- ☒ Departmental oversight
- ☒ Secondary review of invoices and payments
- ☐ Reconciliation of water supplier records
- ☒ Other program review mechanisms are in place. *Describe:*

Periodic internal program audit

#### Local Administering Agencies / District Offices:

- ☐ On - site evaluation
- ☒ Annual program review
- ☒ Monitoring through central database
- ☒ Desk reviews
- ☒ Client file testing/sampling
- ☐ Reconciliation of water supplier records
- ☐ Other program review mechanisms are in place. *Describe:*

**7.4 Explain or attach a copy of your local agency monitoring schedule and protocol.**

IHCDA will do a desktop review up to 10% of all Water benefits determinations using a randomized file selection process. Additionally, IHCDA will review up to 15% of all income eligibility determinations made by Local Administering agencies for Water-specific applicants. Any regularly occurring errors will be re-trained across all agencies in the state. Any acute issues with a specific agency will be addressed directly as soon as identified. Additionally, all claims of grant funds funds local agencies will be based on actual funds spent to administer the program, and backup documentation will be reviewed thoroughly for compliance with pertinent laws/regulations. Any acute issues with a specific agency will be addressed directly as soon as identified. Water Program monitoring will begin in November as the first transmittals begin to come in for the program; the monitor will continue to review up to 10% of weekly files throughout the program year.

**7.5 Describe how you select local agencies for monitoring reviews.**

Site visits:

IHCDA will not be conducting site visits to local agencies for the Water program. however, the program does sit in the same department in IHCDA as CSBG, which does onsite monitoring with Community Action Agencies, which make up 20 of the 21 Water local providers. Additionally, the department head visits sites regularly in a non-monitoring capacity.

Desk reviews:

IHCDA will review up to 10% of all Water benefits determinations using a randomized file selection process. Additionally, IHCDA will review up to 15% of all income eligibility determinations made by Local Administering agencies for Water-specific applicants.

**7.6 How often will each local agency be monitored? *Note: This answer can be prospective.***

IHCDA's monitoring plan revolves around monitoring files rather than agencies. Any regularly occurring errors will be re-trained across all agencies in the state. Any acute issues with a specific agency will be addressed directly as soon as identified. Additionally, IHCDA will hold monthly "office hours" calls with local agencies to set vision and receive feedback throughout the process.

**7.7. How many local agencies are currently on corrective action plans for eligibility and/or benefit determination issues for LIHEAP or other programs administered by your agency?**

2

**7.8. How many local agencies are currently on corrective action plans for financial accounting or administrative issues for LIHEAP or other programs administered by your agency?**

2

If any of the above questions require further explanation or clarification that could not be made in the fields provide, said explanation here.

The agencies listed above are the same 2 agencies; they had both programmatic and financial issues. Both agencies are actively working through their QIP and we anticipate them providing the necessary information and policy updates by the start of the 2022 program year.

## Section 8: Public Participation

### 8.1 How did you obtain input from the public in the development of your LIHWAP plan? *Select all that apply.*

- ☐ Tribal Council meeting(s)  
☐ Public hearing(s)

Enter the dates for Tribal Council meeting(s) or Public hearing(s):

- ☒ Draft Plan posted to website and available for comment  
☐ Hard copy of plan is available for public view and comment

Enter how long draft plan and/or hard copy of plan was available for public view and comment:

- ☐ Comments from applicants are recorded  
☐ Request for comments on draft Plan is advertised  
☒ Stakeholder or consultation meeting(s)  
☐ Comments are solicited during outreach activities  
☒ Other - *Describe:*

IHCDA held a series of 3 feedback webinars with Local service providers as the state plan was being developed and made significant adjustments as a result of the conversations. IHCDA also will hold a feedback meeting with water vendors once the state plan draft is posted.

### 8.2 How many parties commented on your plan?

### 8.3 Summarize the comments you received on your plan here:

Local service providers assured IHCDA that they would be easily able to separate staff time between LIHEAP and LIHWAP tasks. they also requested that we use a "grant with line items" model rather than a "fee per file" structure for the administration of the program.

### 8.4 What changes did you make to your LIHWAP plan as a result of the comments received?

IHCDA implemented the requested funding model for the local providers, and also worked closely with our software developer/vendor to ensure Local Agency concerns were addressed regarding the processes for the water program. IHCDA also modified the outreach plan checkboxes on the plan as a result of conversations with the local providers.

If any of the above questions require further explanation or clarification that could not be made in the fields, provide said explanation here.

## Section 9: Fair Hearings

*Note: Administrative hearing opportunities will be comparable to and may utilize existing processes, procedures, and systems currently in place for the State, Territory, or Tribe's Low Income Home Energy Assistance grant.*

### **9.1 Describe your fair, independent hearing procedures for households whose applications are denied or where the applicant disputes the benefit amount.**

The applicant may appeal a denial or a benefit amount. The notification of benefit or denial will include information about how to appeal.

Step 1: If the applicant applied for EAP, he/she must follow the appeal process set forth in the EAP State Plan.

Step 2: If the applicant was deemed eligible for EAP and not for Water, has an issue with their water benefit, or applied only for Water assistance, the applicant must submit a written appeal to the IHCD Water Program Manager within 30 days of receiving their determination letter. IHCD will review the client's documentation and will respond within thirty (30) calendar days of receipt of the appeal.

Step 3: If after Step 1 and 2, the client still believes their determination was incorrect, he/she may appeal. 

### **9.2 When and how are applicants informed of these rights?**

Applicants are informed of these rights via IHCD's website and in the benefit determination or denial letter.

### **9.3 Describe your fair hearing procedures for households whose applications are not acted on in a timely manner.**

If an applicant feels that an application was not acted on in a timely manner, they should follow steps 1 and 2 as described in section 9.1 of Indiana's State Plan. IHCD also allows denied clients to reapply 55 calendar days after their previous application submission.

**9.4 When and how are applicants informed of these rights?**

Applicants are informed of these rights via IHCD's website and in the benefit determination or denial letter.

If any of the above questions require further explanation or clarification that could not be made in the fields, provide said explanation here.

## Section 10: Training

**10.1 Training Strategy - Briefly describe the anticipated training strategy for ensuring that grantee staff, local administering agencies, and participating water utilities understand requirements outlined in the Terms and Conditions as well eligibility requirements and procedures described in this plan. Indicate any technical assistance or resources needed by the State, Territory or Tribe to carry out this training strategy.**

For Utility Vendors, IHCDCA will hold bi-annual virtual meetings to ensure the utilities understand the Water program and requirements outlined in their MOA with IHCDCA. Additionally, IHCDCA is working with our software vendor to create a "vendor module" where the vendors can login, change their contact information, and see their transmittals at any time. We will host a web-based, recorded training on the use of this module so that vendors can watch any time throughout the year if they need instructions for accessing or changing their information.

IHCDCA staff will attend all OCS and NEADA trainings and conversations regarding the Water program.

The state team also will attend training on data confidentiality and fraud, waste, and abuse.

For local agencies, IHCDCA will provide at least 3 web-based training sessions leading into the program year to provide in-depth information about how the Water program works to local agency Managers.

Additionally, IHCDCA's technology vendor will provide a walkthrough of how to navigate the Water portion of the software. Once the program year starts, IHCDCA will hold monthly virtual "office hours" meetings for managers in which IHCDCA will remind the managers of any new information or guidance, will take questions about how the program is developing, and will receive feedback from managers about what's working and what's not. IHCDCA also will provide access to data confidentiality training and fraud waste and abuse training for all local agencies. Further, we will work with INCAA to identify any further training needs that Water managers or intake staff need to successfully implement the program and will work to provide learning opportunities as needs are identified.

## Section 11: Performance Management

**11.1 Describe any challenges you anticipate with collecting and reporting data to ACF each year regarding how you implemented your LIHWAP. Examples of data may include, but are not limited to, the number of households assisted, the average benefit amount provided, the number of households whose water or wastewater services were restored because of the benefit, demographics of applicants and beneficiaries, and the number of imminent disconnections of water or wastewater services avoided because of the benefit.**

IHCDA does not anticipate any difficulty collected the data listed in the examples above. Our statewide data system already collects this information, so we should be able to do a pull at-will when the data is due.

**11.2 List any technical assistance resources you request of ACF related to data collection, analysis and reporting on your LIHWAP.**

We request T/TA on exactly what the required reporting is (including timeline), and clear descriptions of any indicators have specific definitions that need to be followed.

If any of the above questions require further explanation or clarification that could not be made in the fields, provide said explanation here.

Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios).
